## GETTING STARTED - COSTUME SUPERVISORS

You need two things to start your breakdown in DH COSTUME:

- 1) CHARACTER NAMES AND NUMBERS from AD Department.
- 2) LOCKED SCRIPT in Final Draft, or a converted Screenwriter script from the Script Coordinator.

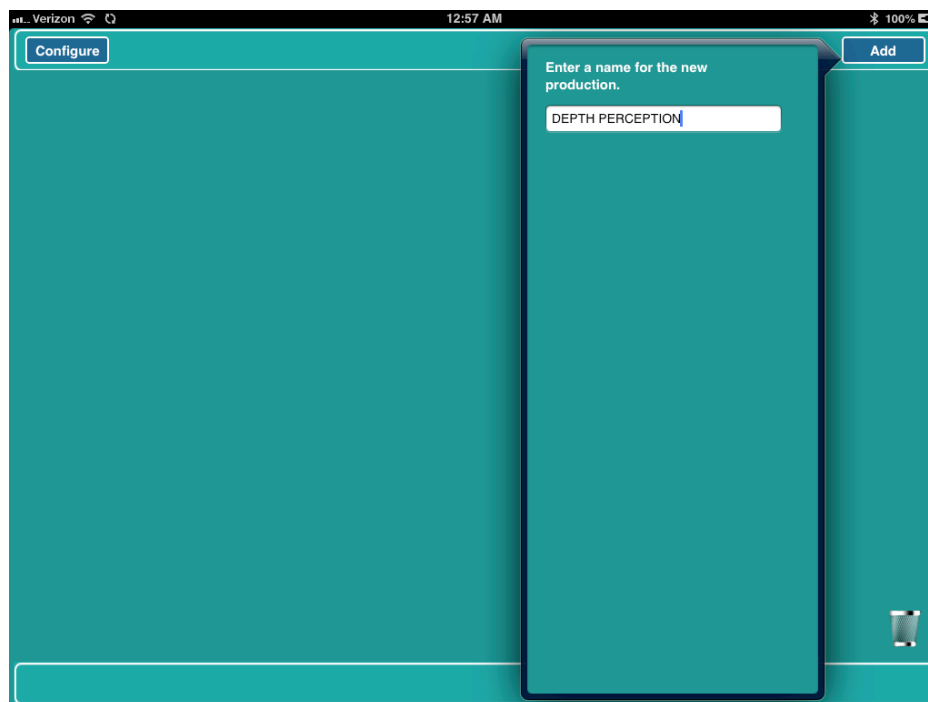

\*contact [techsupport@scriptesystems.com](mailto:techsupport@scriptesystems.com) if you have non-Final Draft Scripts.

## CREATE A FILE

Open DH COSTUME and tap the ADD button (top right corner of the HOME WINDOW).

A prompt opens asking you to:  
"Enter a name for the new production"

Type in your script title and tap DONE on the keyboard.

# DEPARTMENT HEAD COSTUME - QUICK START

Your HOME WINDOW will re-open with your newly named file. Tap the file folder and DH COSTUME will open the project and bring you to the page where you add the characters and their numbers.

## ADD CHARACTERS & CHARACTER NUMBERS

Tap the ADD button beneath the blank CHARACTERS list and add all the Characters by Character number. Be careful to spell the Character names exactly as they are spelled in the script.

(\*note for episodic TV USERS) - check RECURRING for regular cast and you can then EXPORT a CHARACTER LIST containing all recurring characters from this episode and import it to another episode file.

The screenshot shows the 'DEPTH PERCEPTION' app interface. At the top, there are 'Configure' and 'Backup' buttons. The main area is divided into 'Characters' and 'RIANA's Scenes'. A modal form is open for adding a character. The form fields are as follows:

- #: 1
- Name: BRIANA
- Recurring:
- Gender:  Unknown  Male  Female
- Abbr: B
- Actor: JANE B. DOE
- Description: 30ish gallery owner
- Sizes:
- Age: 30ish
- Height: 5'4"
- Weight: 120lb
- Ear:
- Bra: 36D
- 

At the bottom of the app, there are several navigation buttons: 'Export', 'Import', 'Reorder', 'Add', 'Add Change', 'By: Scene', 'Script Day', 'Change', 'Characters', 'Extras', 'Inventory', 'Reports', 'Tag Em', 'Script', and 'Production'.

# DEPARTMENT HEAD COSTUME - QUICK START

Once you have entered all your characters you are then ready to import your script.

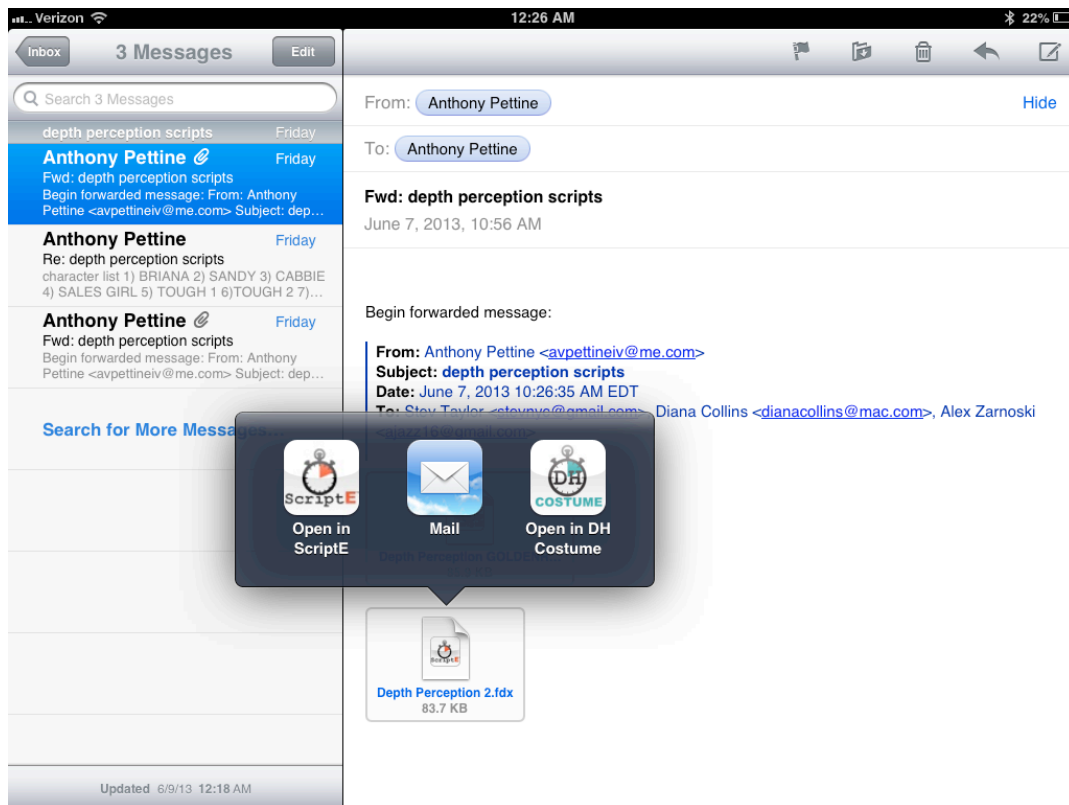

## IMPORT A SCRIPT

Tap the HOME button on your iPad and open Mail. If Mail was previously opened, double-tap the HOME button to more quickly find MAIL.

Go to the email that contains the Final Draft Script from your Script Coordinator.

If the attached script shows as a downward pointing arrow, tap it to download the file.

Touch and hold your finger on the script and your iPad will ask where you would like to open the script.

# DEPARTMENT HEAD COSTUME - QUICK START

Tap DH Costume.

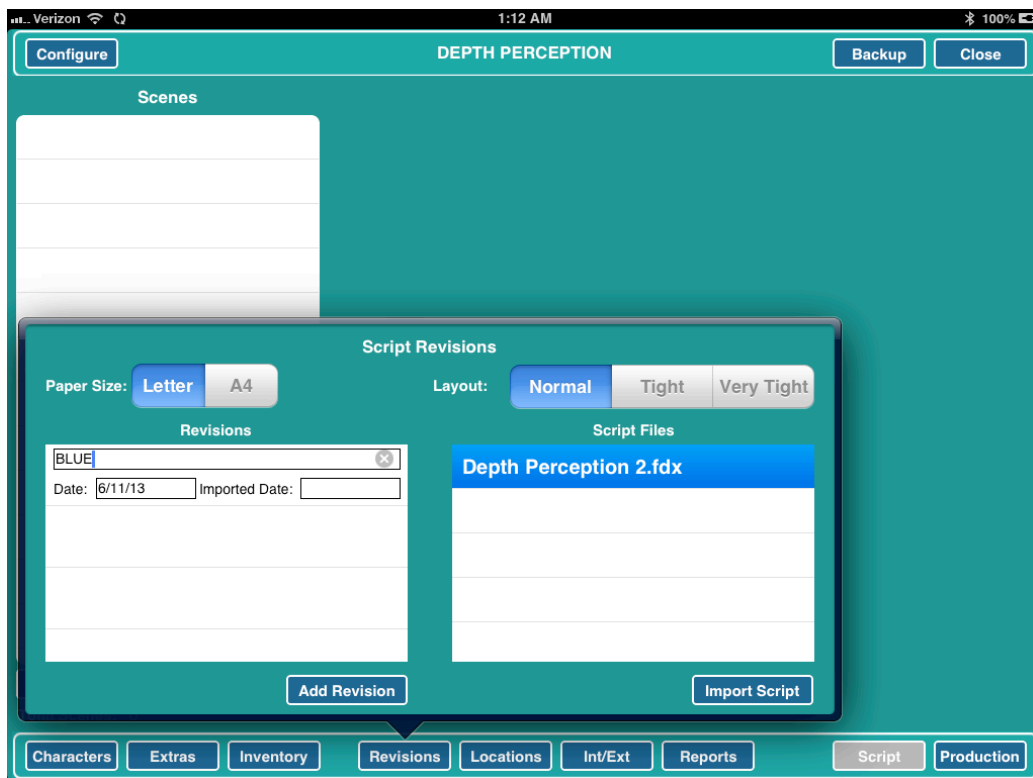

When prompted, choose ADD TO FOLDER and DH Costume will open back up and you will see your script appear in the SCRIPT FILES list.

Tap the ADD REVISION button under the Revisions list. A revision with the default title "LATEST REVISION" will be added to the list.

Tap the X to erase this place-holder title and type in the proper REVISION COLOR (i.e. WHITE, BLUE, PINK, etc.).

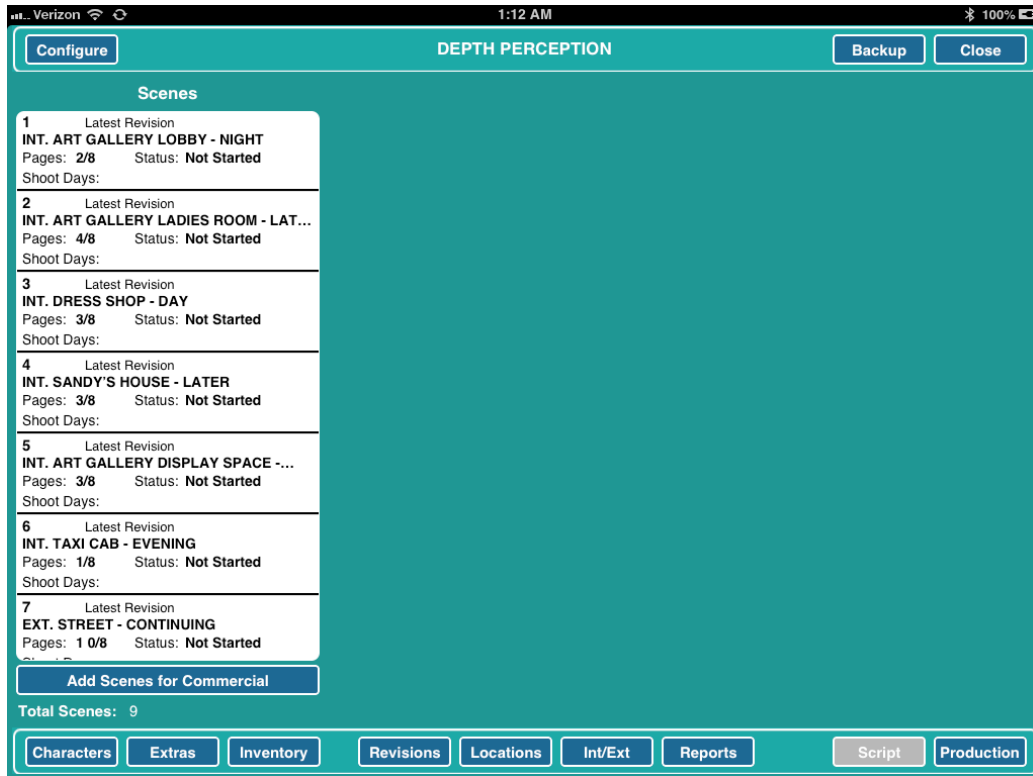

Dismiss the keyboard then tap the script that you selected earlier in the SCRIPT FILES list. The script will now be highlighted.

Tap the IMPORT SCRIPT button and DH COSTUME will import your script.

# DEPARTMENT HEAD COSTUME - QUICK START

You are now ready to start entering your continuity information and changes.

## PRE-SHOOTING BREAKDOWN AND TAGS

Now your script has been imported and you are ready to break it down into Continuity Days and Changes.

Tap Scene 1 (on the left of your page) - You will notice that scene headings have already been extracted during the importation process. You will also see that the SPEAKING CHARACTERS are listed for you in the middle of the page and the script itself is available for you to read in the lower right hand section of your screen.

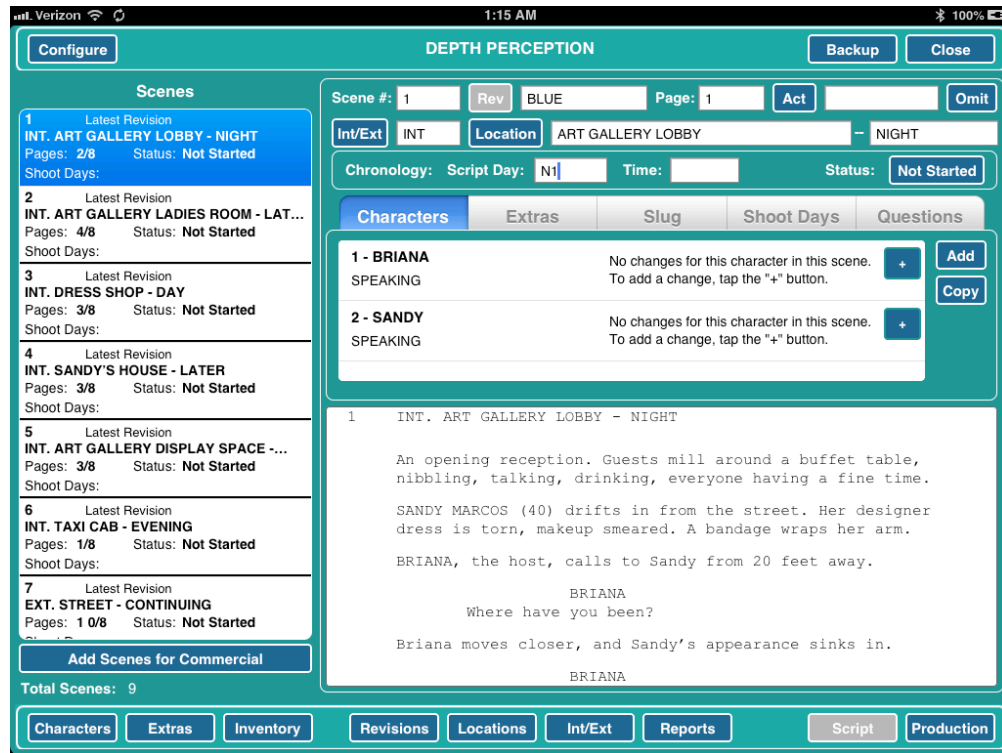

You are now ready to fill in the SCRIPT DAY in the CHRONOLOGY LINE.

# DEPARTMENT HEAD COSTUME - QUICK START

## CHRONOLOGY LINE

If already provided by production, fill in the information you have for the CHRONOLOGY LINE: D1, N1, etc.

## FIVE TABS

Five tabs are listed across the middle right-side of this window: CHARACTERS, EXTRAS, SLUG, SHOOT DAYS, QUESTIONS

## CHARACTERS

At this point DH COSTUME should be open to the CHARACTERS tab. The import process will have already identified all SPEAKING CHARACTERS for you.

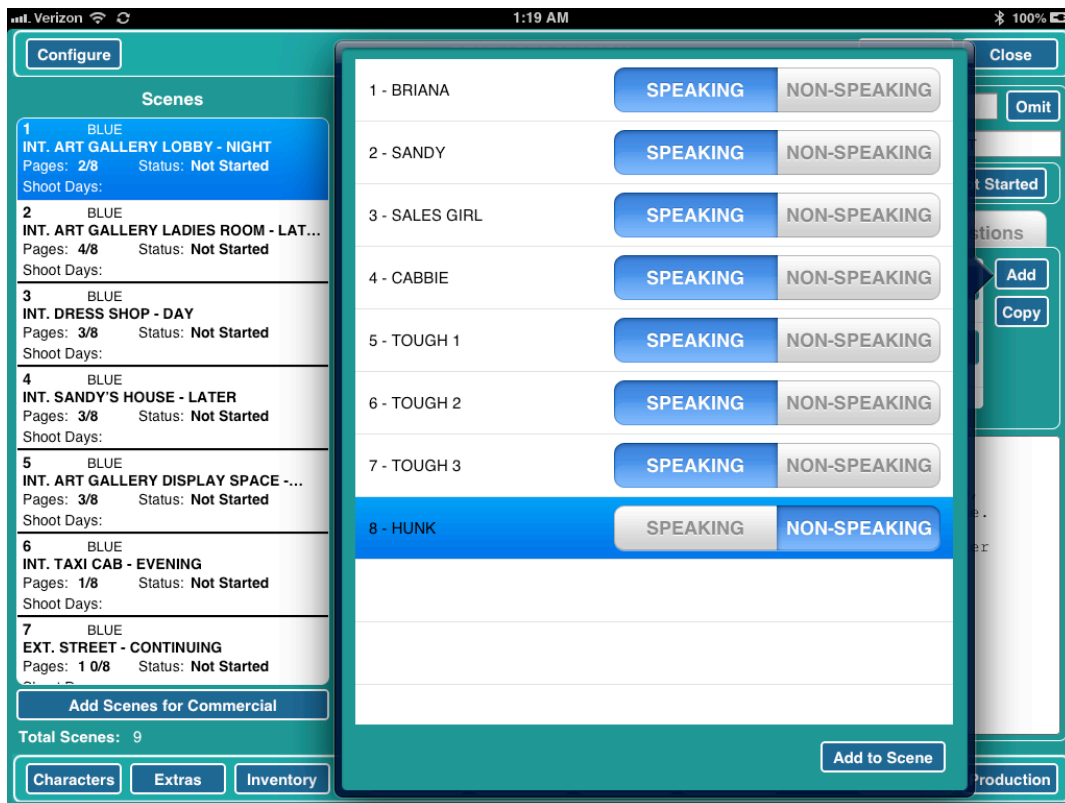

You can now add any additional NON-SPEAKING numbered characters. (\*note - the EXTRAS tab is used for non-numbered background actors).

# DEPARTMENT HEAD COSTUME - QUICK START

To add characters to the scene, tap the Add button on the right side of the characters list.

Select each character that you want to add by tapping the character's name in the list. Then, for each character, choose "SPEAKING" or "NON-SPEAKING".

After selecting all the characters needed for the scene, tap the ADD TO SCENE button - to add the highlighted characters to the scene.

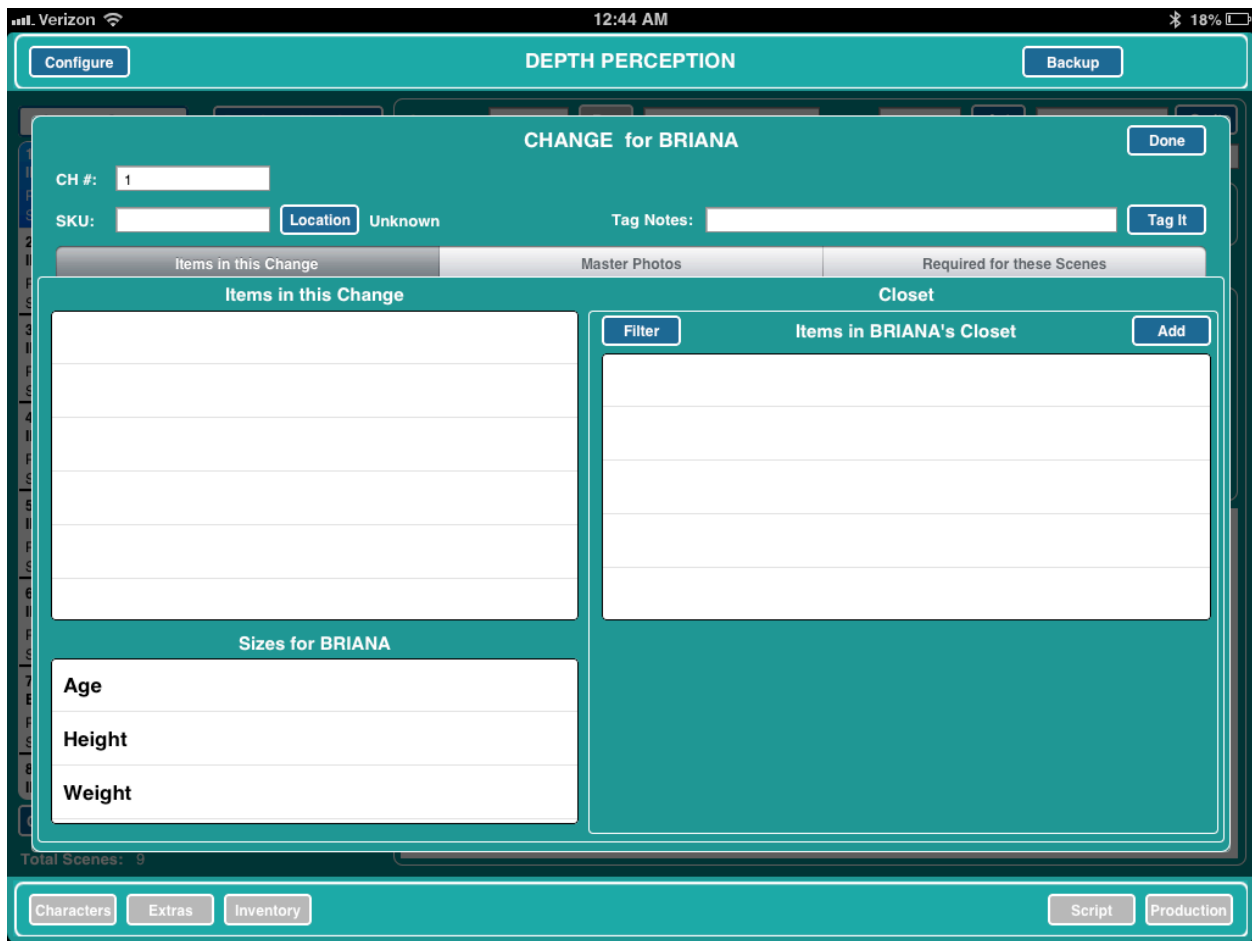

note: If you mistakenly add a character to a scene - swiping from right to left reveals a DELETE button highlighted in red.

# DEPARTMENT HEAD COSTUME - QUICK START

## ADD CHANGES

To add a CHANGE # simply tap the "+" button to the right of the character and a CHANGE SELECTOR WINDOW will open for the selected character.

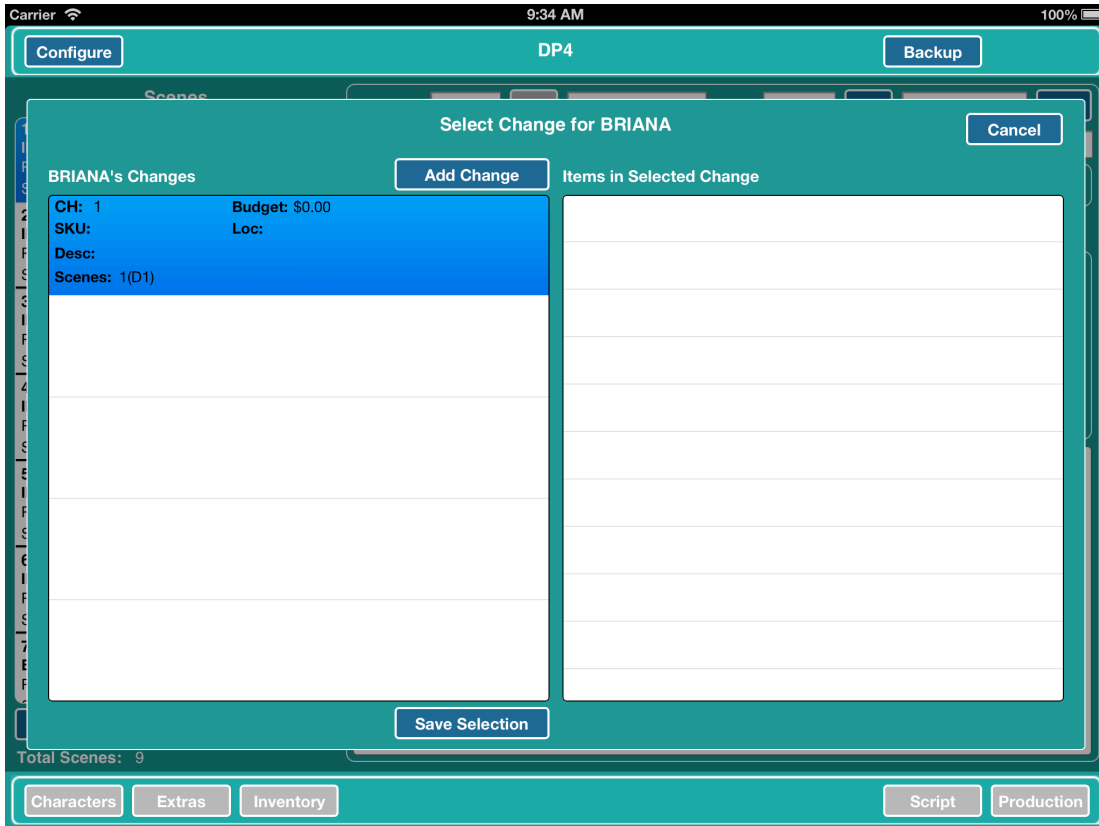

If the change required for the scene is not in the list, tap the ADD CHANGE button. The CHANGE SCREEN will open up. You can now give the CHANGE a NUMBER and fill in any of the TAG NOTES that you would like to add. You can add as much detail as you are ready to at this point, then tap the DONE button.

The CHANGE WINDOW will open for you with your new change highlighted yellow.

# DEPARTMENT HEAD COSTUME - QUICK START

Tap the change you would like to add for that scene. Once selected the change will highlight blue and the items in that change will be displayed. As this is your initial breakdown these will most likely be blank CHANGES awaiting your designers instructions. When you are ready to add the change to the scene, tap the SAVE SELECTION button.

And the change will be added to the scene.

3 INT. DRESS SHOP - DAY

Sandy stands in front of a full length mirror, modeling the Nicole Miller dress. Even without the dress, Sandy would turn heads: trim and muscular. With the dress, she's a vision.

SANDY  
Ohhhhh, yeah. Oh yeah.

She twirls, imaginary flirtations playing over her face. She lifts the price tag...

## EXTRAS

Tap the EXTRAS tab and you can enter your EXTRAS by Extra type. Tap the ADD button to the right of the EXTRAS list. For example:

EXTRA TYPE: WAITERS

QUANTITY REQUIRED: 15

DH COSTUME will then create, number and remember these EXTRAS.

Proceed as you did in the CHARACTERS section to add CHANGES for the EXTRAS.

The screenshot displays the DEPTH PERCEPTION software interface. On the left, a 'Scenes' list shows seven scenes, each with a scene number, location, and status. The main area shows the script for Scene #1, 'INT. ART GALLERY LOBBY - NIGHT', with a description and dialogue. A modal window is open for adding an extra, with 'Extra Type' set to 'WAITER' and 'Quantity Required' set to '2'. The bottom navigation bar includes tabs for Characters, Extras, Inventory, Revisions, Locations, Int/Ext, Reports, Script, and Production.

1 INT. ART GALLERY LOBBY - NIGHT

An opening reception. Guests mill around a buffet table, nibbling, talking, drinking, everyone having a fine time.

SANDY MARCOS (40) drifts in from the street. Her designer dress is torn, makeup smeared. A bandage wraps her arm.

BRIANA, the host, calls to Sandy from 20 feet away.

BRIANA  
Where have you been?

Briana moves closer, and Sandy's appearance sinks in.

## SLUG

Write a brief summary of the scene.

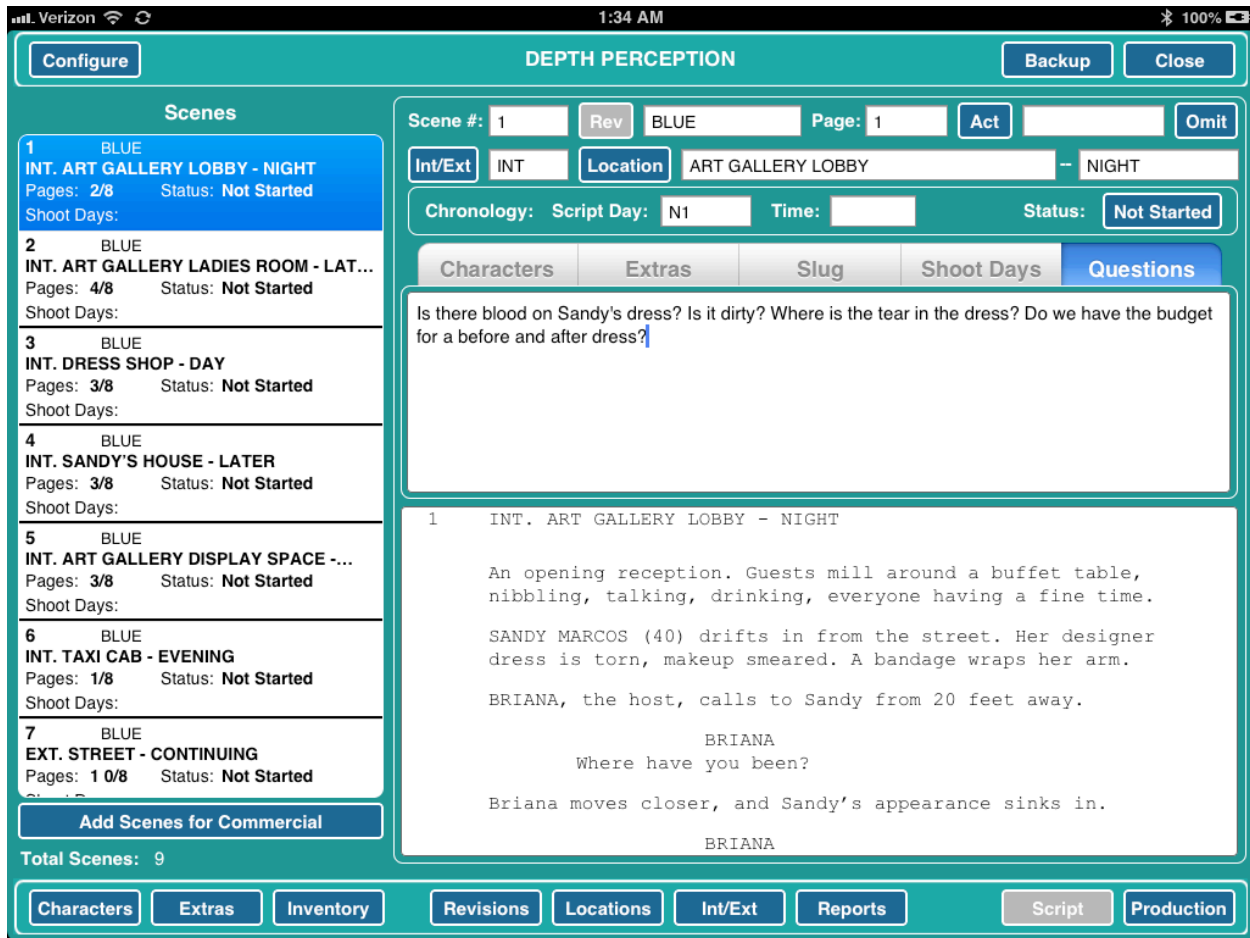

## SHOOT DAYS

Skip this tab until you receive a shooting schedule from the AD department.

## QUESTIONS

Use this tab to keep track of any questions you might have for your DESIGNER or PRODUCTION as they pertain to COSTUME CONTINUITY. These questions will appear in scene order on the last page of your COSTUME BREAKDOWN.

# DEPARTMENT HEAD COSTUME - QUICK START

## PRINTING TAGS

Tap the CHARACTERS button in the lower left to display the main CHARACTER WINDOW.

Tap the TAG EM button (center bottom of screen) and a box opens up where you will choose to print the Front, Back, or Both sides of the labels and where you will choose your printer.

\*note - If using a DYMO printer please note that you must first download the free DYMO printer application from DH COSTUME website: [INCLUDE ADDRESS](#)) The Dymo™ needs the software 8.3 or higher (free update available on their website).

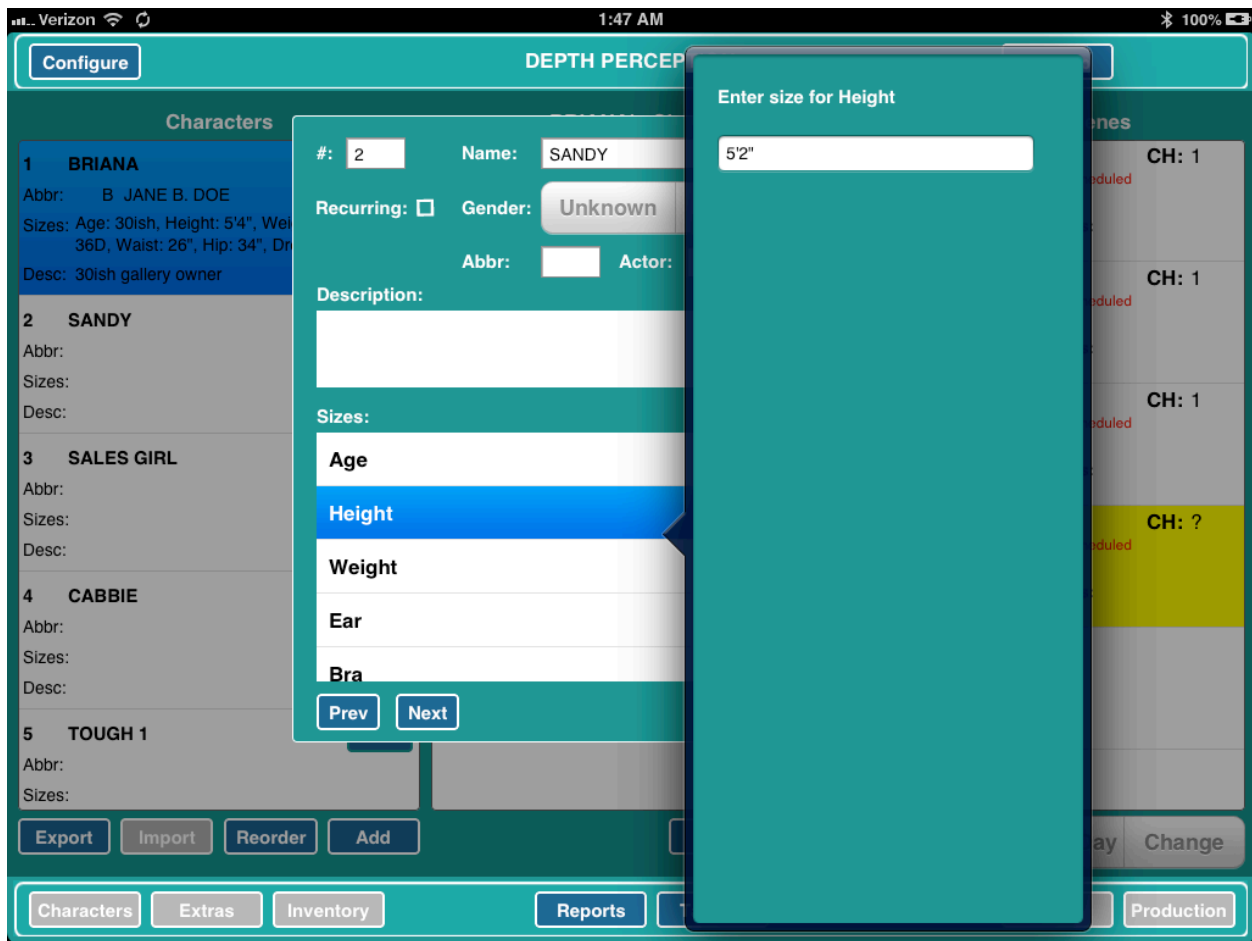

# DEPARTMENT HEAD COSTUME - QUICK START

Your pre-shooting Breakdown and Tags are Done!

## ADDING SIZES

If not yet in the CHARACTERS WINDOW, Tap the CHARACTERS button in the lower left hand corner of screen.

Tap the EDIT button for a character in the list. Select the gender and a list of default sizes will be added to the SIZES list. Then enter in all pertinent sizing information by selecting a size item in the list. You may even add additional size categories by clicking the ADD SIZE button and selecting from the pop up list.

# DEPARTMENT HEAD COSTUME - QUICK START

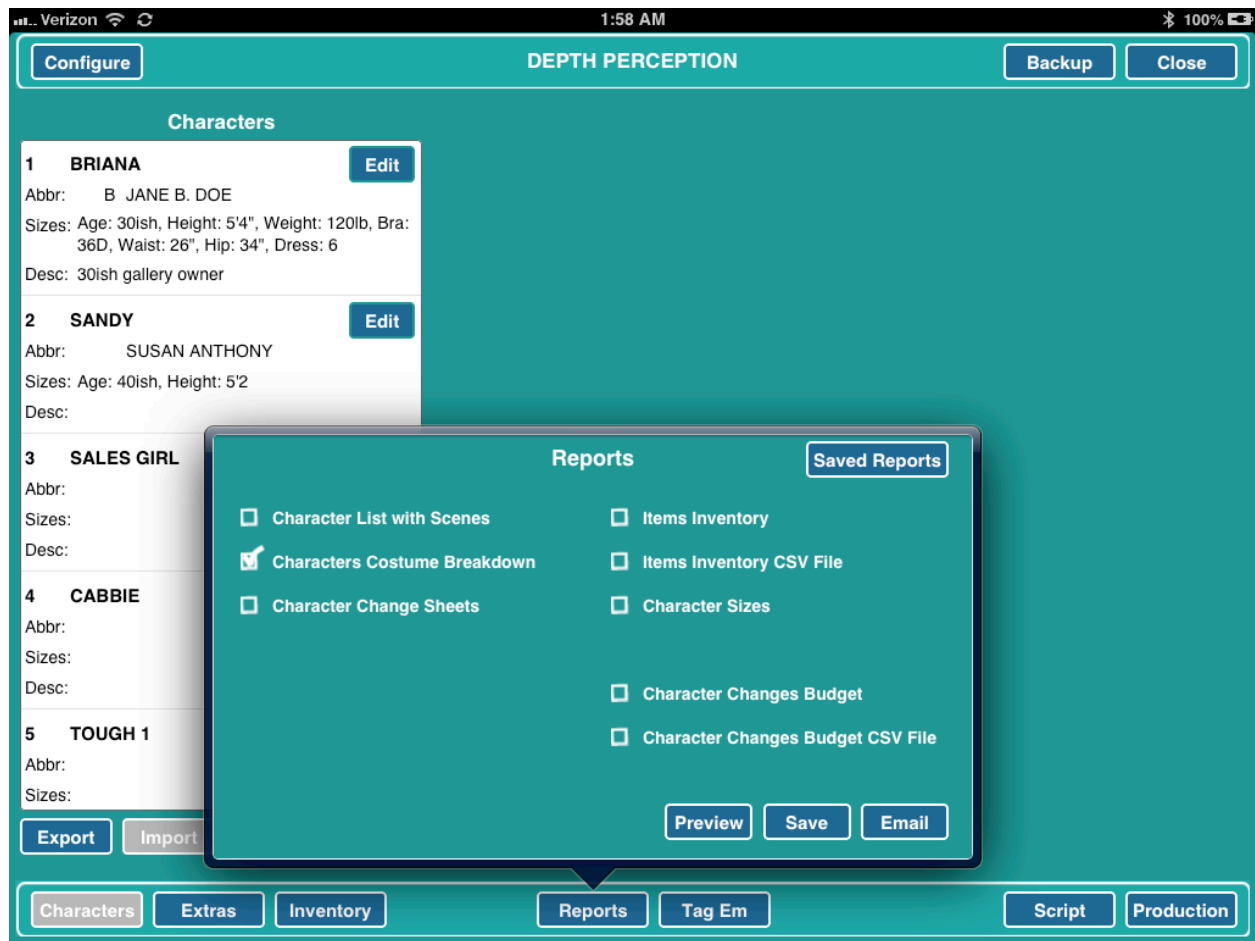

## SHARE YOUR BREAKDOWN

Now let's share the Breakdown and your file with your Designer.

Tap the REPORTS button (center bottom of screen) - Select the CHARACTER COSTUME BREAKDOWN.

Tap the PREVIEW button to PREVIEW your report.

Tap the EMAIL button to create an email with your COSTUME BREAKDOWN attached in pdf format.

# DEPARTMENT HEAD COSTUME - QUICK START

## SHARE YOUR FILE

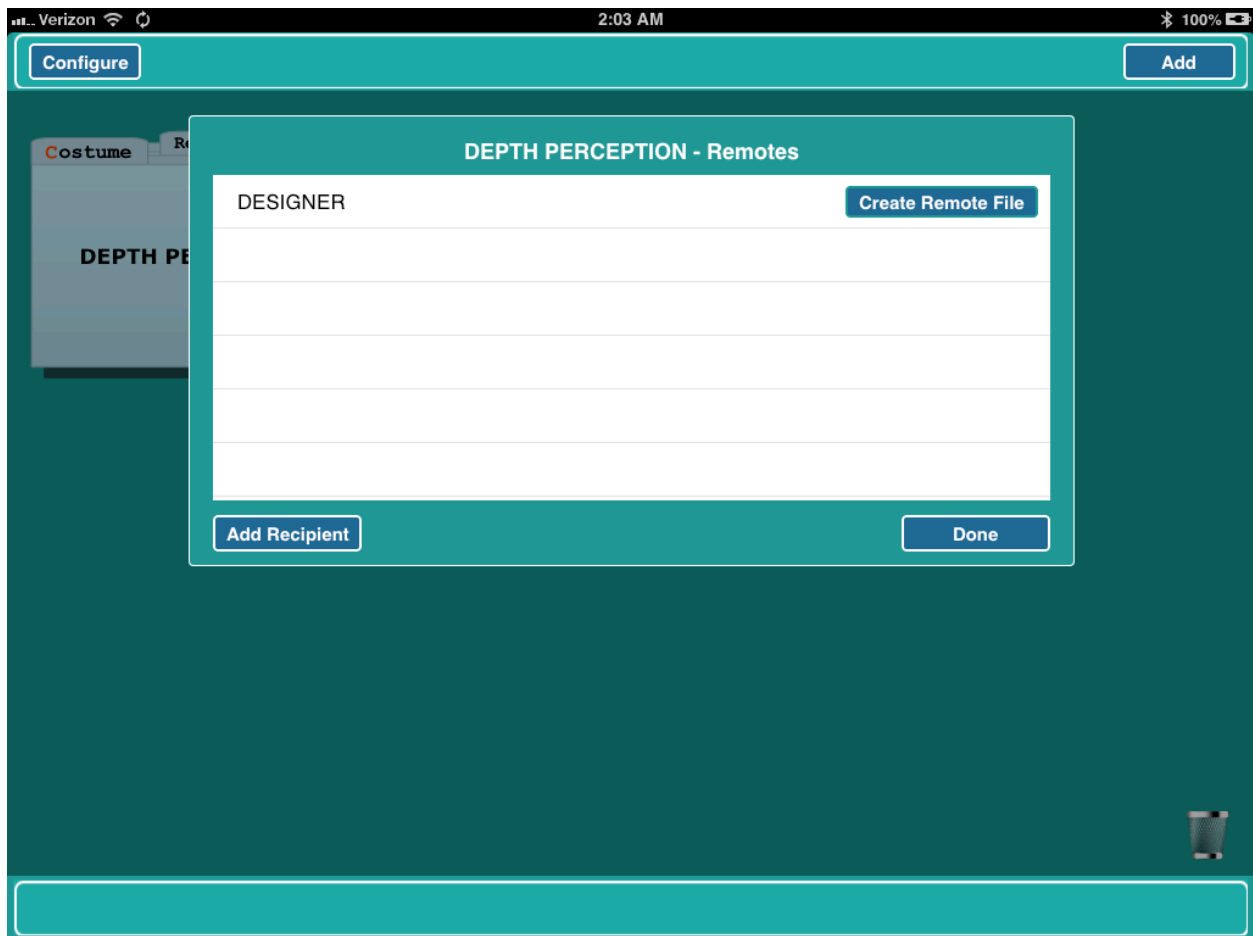

To Share your file with your Designer simply CLOSE the file (upper right button) and you will then return to Home page.

Tap the REMOTE tab on the top middle of your project folder. You will then be presented with a REMOTES window.

Let's say we are creating a file for our DESIGNER.

Tap the ADD RECIPIENT button. NAME a file copy for your designer.

Tap the CREATE REMOTE FILE button. Choose whether or not to include budget information.

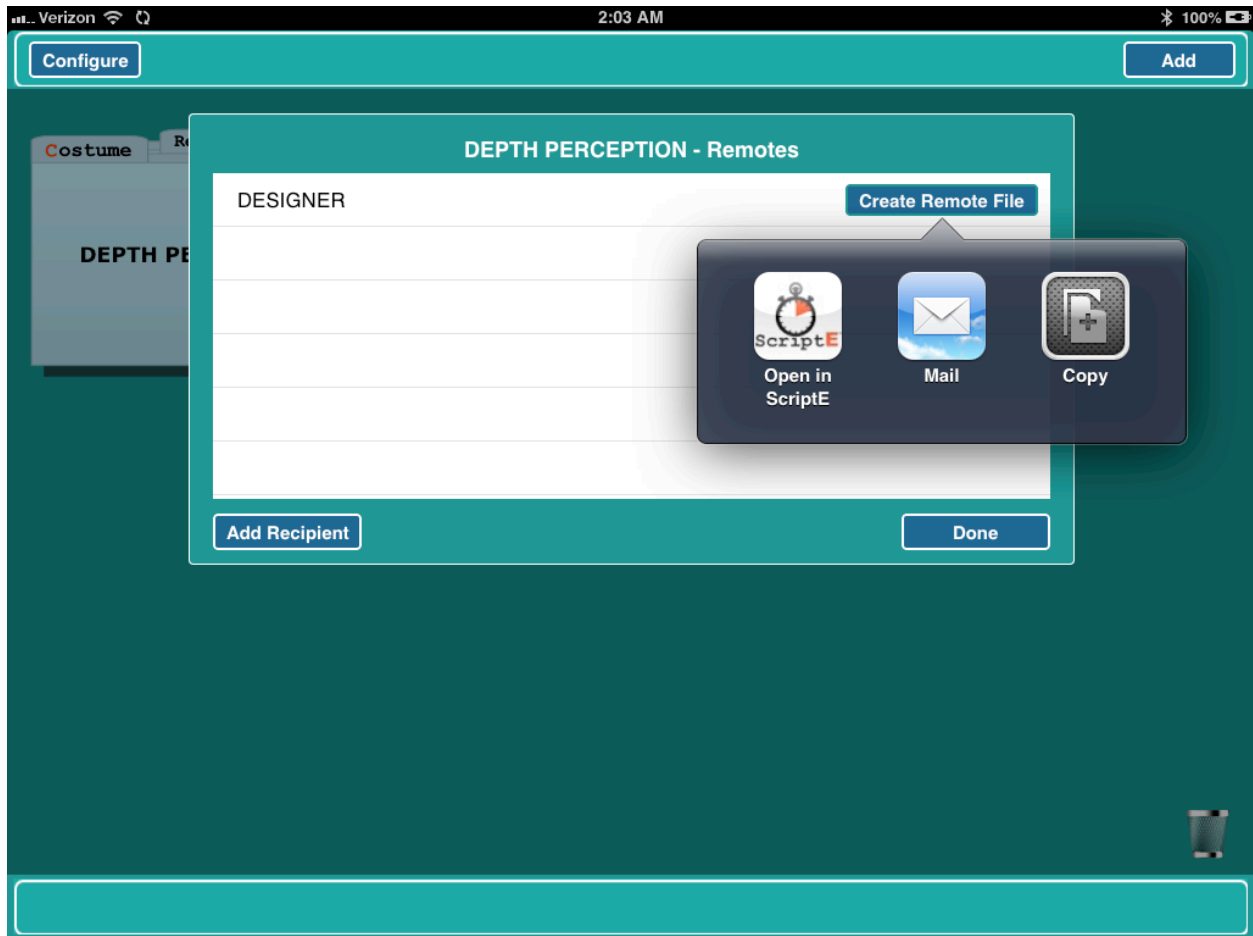

# DEPARTMENT HEAD COSTUME - QUICK START

A SHARE WINDOW will open: Choose either MAIL, or DROP BOX.

The REMOTE FILE is now ready for your Designer to fill in the closets, budgets and start filling the changes.

\*note - Please remind your DESIGNER to only work in these fields and that you will input BREAKDOWN NOTES FOR THE SCENE.

As shooting begins - you can also create REMOTE FILES for your ON SET COSTUMERS where they will enter their photos and CONTINUITY NOTES.

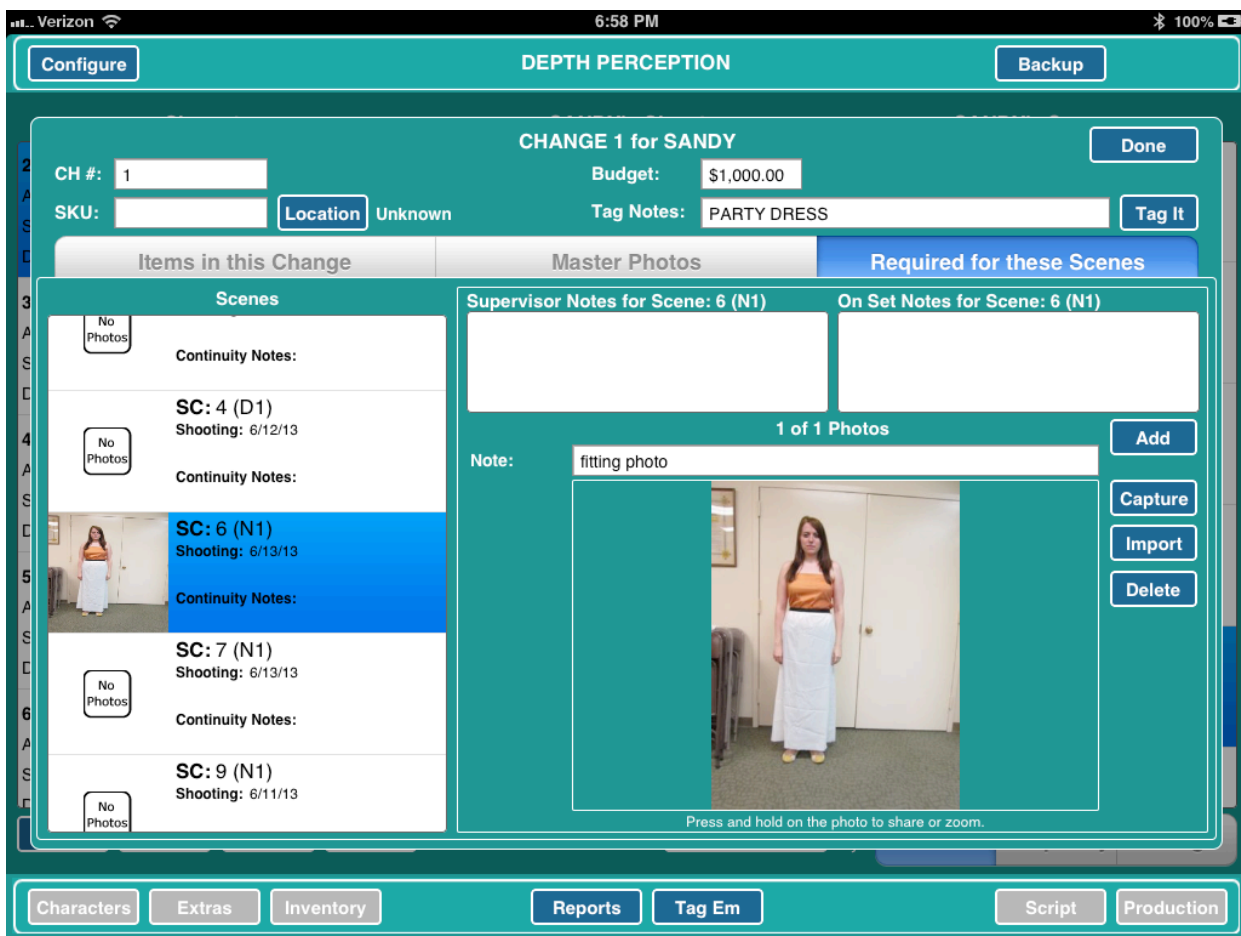

# DEPARTMENT HEAD COSTUME - QUICK START

## DESIGNER/ASSIST. DESIGNER & COSTUME SUPERVISOR

The Design Team can now fill the ACTOR's CLOSETS, BUILD CHANGES, adjust BUDGETS and add FITTING PHOTOS.

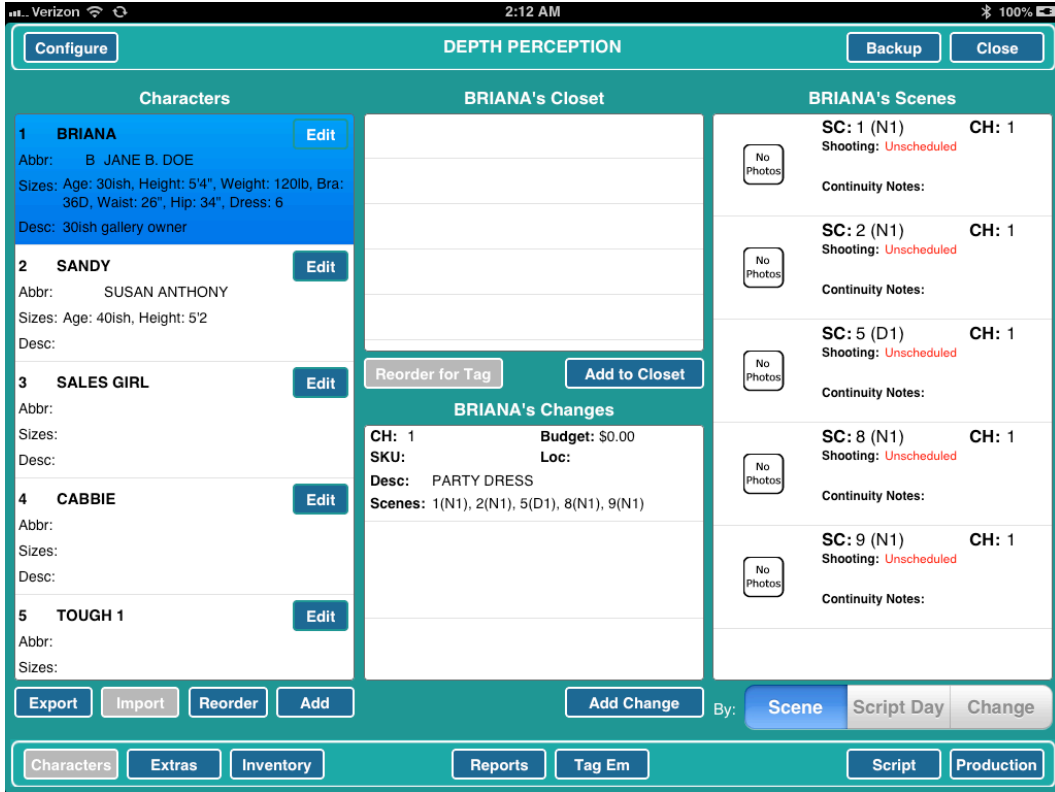

### FILL CLOSETS

Tap the CHARACTER button in the lower left hand corner of the screen. A CHARACTERS LIST will now open with all numbered Characters appearing in a list on the left.

Tap the desired Character to see a list of that character's CLOSET ITEMS and CHANGES.

# DEPARTMENT HEAD COSTUME - QUICK START

Tap the ADD TO CLOSET button under the CLOSET and you can begin to enter ITEMS. There are fields for quantity to indicate where duplicates are needed as well as a description box.

# DEPARTMENT HEAD COSTUME - QUICK START

## BUILD CHANGES

DH COSTUME easily allows users to switch between CHARACTER CHANGES and CHARACTER CLOSETS.

From the CHARACTER screen, tap the Character for whom you'll be adding changes.

To add a new change, tap the ADD CHANGE button. Once you have added changes, you may also tap a CHANGE in the list to add items for that CHANGE. That Change's screen will be displayed.

In the CHANGE screen, tap the ADD button in the Closet section. In the CLOSET ITEM screen, type a title such as SHIRT or DRESS. Enter the QUANTITY REQUIRED such as when a duplicate might be needed. Otherwise, just enter 1 and tap NEXT on the keyboard. Type a DESCRIPTION, if necessary.

## **DEPARTMENT HEAD COSTUME - QUICK START**

To enter the size or cost information tap the item in the INDIVIDUAL ITEMS list below. Fill in the necessary information in the ITEM window then tap the DONE button on top right of screen.

After the size and cost information for each item has been entered, tap the DONE button for the closet item and the item will be added to the Character's closet. Continue this process for each item in the change.

When all of the items are in the closet you may then select each item for the change by tapping an item in the closet. The list of individual items for the closet item will be displayed in the list below. Tap the specific item to add it to the change.

### **TAKE FITTING PHOTOS**

Tap the MASTER PHOTOS tab and either CAPTURE photos with the iPad or IMPORT PHOTOS from your Camera App.

Once photos are loaded into DH COSTUME, a DESIGNER may enter in DESCRIPTIONS and flag photos as FITTING PHOTOS.

## **PREPARE FOR SHOOTING**

### **COSTUME SUPERVISOR**

Your CHANGES should now be built by your design team. Fitting Photos and notes attached to the remote files.

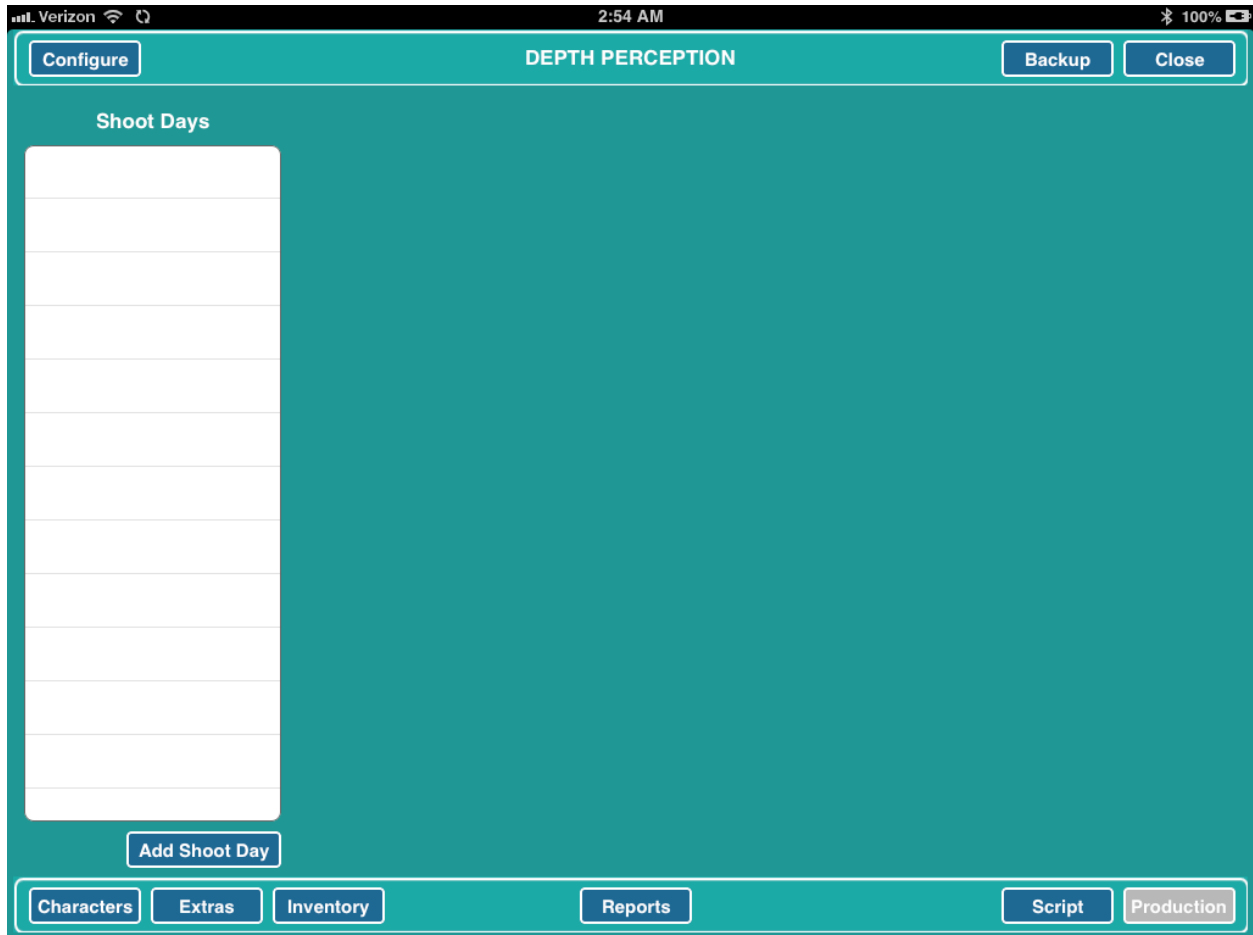

### **ENTER SHOOT DAYS**

When the AD Department provides you with the shooting schedule you can quickly apply this schedule to your file.

## DEPARTMENT HEAD COSTUME - QUICK START

Tap the PRODUCTION button in the lower right hand corner of your screen. This will open a blank Shoot Days list.

Tap the ADD SHOOT DAY button beneath the SHOOT DAYS list and enter your DAY and DATE.

Tap the ADD SCENE button beneath the lower right hand corner of the SCHEDULED SCENES list and then select a scene from the pop up list. Be sure to select the scenes in shooting order.

Repeat for each scene that is being shot that day.

## **SYNCHING REMOTE FILES**

As you prepare for shooting, it is good to get the remote file back from your designer. You can then SYNCH the REMOTE FILE with your MAIN FILE.

With your project file open in DH COSTUME, double-tap the HOME BUTTON to reveal your MAIL App. Tap to open the MAIL App.

Then open the email from your designer and tap the REMOTE FILE. When prompted, select OPEN IN DH COSTUME.

You will be returned to the DH COSTUME app so tap the CLOSE button to close your project. Then tap the REMOTE tab on your project folder and tap "SYNCH REMOTE FILE" to update your master file.

Once your CLOSETS, CHANGES and SCHEDULE are all filled in, you are ready to start shooting.

## **WORKFLOW NOTE**

DH COSTUME is designed for stability, efficiency, and accuracy. It is up to the COSTUME SUPERVISOR to make certain their crew is properly inputting information in the file and that all REMOTE FILES are RE-SYNCHED at the end of each work day.

But don't worry, if an ON-SET COSTUMER mistakenly inputs information in another field, DH COSTUME will print out a document that outlines all conflicts. THE COSTUMER must simply add the over-written information back into the file.

We recommend that the COSTUME SUPERVISOR set a daily routine of SENDING OUT and RE-SYNCHING remote files with

# DEPARTMENT HEAD COSTUME - QUICK START

the ON-SET COSTUMERS and DESIGNERS. It is advised that the COSTUME SUPERVISOR make certain a routine is established at the beginning of the production.

## SHOOTING BEGINS COSTUME SUPERVISOR

### PRINT OUT DAYS REPORTS

Double check your CHANGES for the day and print out any reports, bag tags, etc.

The screenshot displays the DEPTH PERCEPTION mobile application interface. At the top, there is a teal header bar with a 'Configure' button on the left, the text 'DEPTH PERCEPTION' in the center, and 'Backup' and 'Close' buttons on the right. Below the header, the 'Shoot Days' section shows a list of days: Day 1 (6/11/13), Day 2 (6/12/13), and Day 3 (6/13/13). The 'Day 1' entry is selected. To the right, there are tabs for 'Scheduled Scenes', 'Weather', 'On Set Notes', and 'Production Notes'. The 'Scheduled Scenes' tab is active, showing a scene titled '1 INT. ART GALLERY LOBBY - NIGHT' with a 'Page: 1' indicator. Below the scene title, there is a table listing characters and their details:

Character	SKU	Loc
1: BRIANA - CH: 1 dress looks it's best in scene 1	SKU:	Loc: Unknown
2: SANDY - CH: 1	SKU:	Loc: Unknown
8: HUNK - CH: 1	SKU:	Loc: Unknown
1: BG WAITER 1 - CH: 1	SKU:	Loc: Unknown
2: BG WAITER 2 - CH: 1	SKU:	Loc: Unknown

A 'Production Reports' dialog box is overlaid on the scene details. It has a 'Saved Reports' button in the top right corner. The dialog contains the following options:

- Full Shooting Schedule
- Day 1 Schedule
- Day 1 Changes
- Day 1 Character Line Up
- Day 1 Extras Line Up

At the bottom of the dialog are 'Preview', 'Save', and 'Email' buttons. The background application interface also shows an 'Add Shoot Day' button at the bottom left and an 'Add Scene' button at the bottom right. At the very bottom of the screen, there is a navigation bar with buttons for 'Characters', 'Extras', 'Inventory', 'Reports', 'Script', and 'Production'.

### **SEND OUT REMOTE FILES TO ON-SET COSTUMERS**

**CREATE REMOTE FILES** - Close your current file and go back to the main DH COSTUME desktop.

Tap the REMOTE tab in the top middle of the project folder.

**ADD and NAME your REMOTE FILES for all ON-SET COSTUMERS** - We recommend naming the file for the COSTUMER - for example:

"JESSIE"

Then EMAIL or DROP BOX this new REMOTE file to the ON-SET COSTUMER for whom it was created by tapping the CREATE REMOTE FILE button.

# DEPARTMENT HEAD COSTUME - QUICK START

(\*note to avoid extra work and over-writing - remind your ON-SET COSTUMER to only attach notes in the ON-SET subsection of the CHANGE WINDOW. They should also remember to ATTACH and LABEL all their photos prior to RE-SENDING their work back to the COSTUME SUPERVISOR.

## ON-SET COSTUMERS

OPEN the remote file sent to you from the COSTUME SUPERVISOR. You are now ready to photograph and make your continuity notes in the ON-SET NOTES SECTION for your character/characters. Remember to limit your work to these areas to avoid extra work for your SUPERVISOR.

### **GETTING PHOTOS INTO DH COSTUME - 4 METHODS**

Photographs may be taken with the iPad, iPhone or other camera.

1) The easiest way to get your photos into DH COSTUME is to use the onboard iPad camera. All iPad photo features (touch to expose - touch to focus, etc.) are built directly into the DH COSTUME photo capture windows.

2) iPhone users with a shared APPLE ID on both their iPad and iPhone may turn on PHOTO STREAM on both devices and easily access iPhone photos on their iPad.

3) Photos may also be emailed to the iPad and saved to the PHOTO APP. Or taken with a traditional digital camera and accessed via a photo card and iPad cable adaptor.

4) Photos may also be PUSHED to a SHARED DROP BOX folder and added to files as time permits.

### **SYNCH REMOTE FILES**

As your ON-SET COSTUMERS finish their work they should either email or drop box you their REMOTE FILES.

Open the email from your designer and TAP the REMOTE FILE. When prompted select OPEN IN DH COSTUME. Be sure the project is open in DH COSTUME.

Close the project then tap the REMOTE tab on the project folder and tap the SYNCH REMOTE FILE button to update your master file.

When the Remote files return to you from the ON SET COSTUMER they will have pictures attached. To choose the Photos that will be printed in the book - Select a Character, then Select a Change (lower center), then tap Master Photos (center TAB on the Upper Tool Bar).

Tap the ADD button beneath the Master Photos list to add a new master photo. Identify the photo as ESTABLISHED or DETAIL then tap the CONTINUITY button to select an on-set photo. The on-set note will be used here but you can change it, if necessary.

## MARK A SCENE AS STARTED or COMPLETED

The default setting for all scenes is: NOT STARTED. You can mark a scene as COMPLETE or STARTED by doing the following:

Tap the SCRIPT button (lower right-hand corner of screen) and select the scene in the list on the left.

Tap the button next to STATUS: (in the CHRONOLOGY section)

Each tap advances the STATUS:

1st tap - STARTED (this will highlight the scene yellow)

2nd tap - COMPLETED (this will highlight the scene GREEN)

3rd tap - back to NOT STARTED

The screenshot displays the DEPTH PERCEPTION app interface. At the top, there's a status bar with 'Verizon', '3:43 AM', and '100%' battery. The app title 'DEPTH PERCEPTION' is centered, with 'Configure', 'Backup', and 'Close' buttons. Below the title, there's a 'Scenes' list on the left and a 'Chronology' section on the right. The 'Scenes' list shows 9 scenes, with scene 5 highlighted in green (Completed), scene 6 in blue (Not Started), and scene 9 in yellow (Started). The 'Chronology' section shows scene 6 details: 'Scene #: 6', 'Rev: BLUE', 'Page: 3', 'Act: [blank]', 'Omit: [blank]', 'Int/Ext: INT', 'Location: TAXI CAB', 'Evening: EVENING', 'Chronology: Script Day: N1', 'Time: [blank]', 'Status: Not Started'. Below this is a 'Characters' table with columns for 'Characters', 'Extras', 'Slug', 'Shoot Days', and 'Questions'. It lists '2 - SANDY SPEAKING' and '4 - CABBIE SPEAKING', both with 'No Photos' and 'CH: 1'. At the bottom, there's a 'Script' view for scene 6, showing the text: '6 INT. TAXI CAB - EVENING', 'Sandy sits anxiously in the back of the cab, dressed to kill. Traffic is grid-locked, and she is steaming mad.', 'CABBIE It's not as bad as it looks!', 'SANDY We haven't moved in ten minutes!', 'She throws some cash at the cabbie and gets out.' The bottom navigation bar includes buttons for 'Characters', 'Extras', 'Inventory', 'Revisions', 'Locations', 'Int/Ext', 'Reports', 'Script', and 'Production'.
